An Open Letter.

Two years ago the adulteration of cigarettes was brought to our notice, and after looking into the matter, we were satisfied that of all the millions of cigarettes annually sold, almost all contained opium and other drugs.

This being the case we commenced a series of expensive experiments, to ascertain whether a cigarette could be made that would meet the approval of a critical public, and at the same time be absolutely pure, made from the purest and best leaf tobacco, entirely free from all drugs and adulterations and covered with that great rarity, pure rice

After long and patient experimenting, we succeeded in producing a cigarette which fulfilled all these requirements and on July 18, 1881, we commenced advertising in all the Chicago daily papers. Such was the popular demand in Chicago, for BLACKWELL'S BULL DURHAM CIGARETTES, that we were unable to supply it, and for months our factory was taxed to its utmost capacity to fill orders from that section. The unprecedented demand there prevented our pushing the cigarettes in other parts of country, until we could largely increase our facilities for manufacturing.

This delay has been taken advantage of by some unscrupulous manufacturers who, jealous of our success in Chicago, have gone to distant points, and by "stealing our thunder have endeavored to create a trade. Success always brings imitators and imitation is best proof of the merit of the original.

Our facilities for manufacturing are now equal to any demand, and in introducing our goods here we make this statement, that you may understand that we are not following in the lead of any other manufacturer.

We shall publish statements from leading dealers in Chieago, showing that though unknown there seven months ago, Blackwell's Bull Dur-HAM CIGARETTES are now the leading brand in that market, and though introduced by advertising, they have since held the first position from merit alone, thus proving that these cigarettes are what the public want. More of our cigarettes have been sold in the last seven months in Chicago alone than the entire product of certain manufacturers who have copied our methods of pushing the sale of our goods.

Our firm is well known in the South, and in presenting BLACKWELL'S BULL DURHAM CIGARETTES, we pledge our reputation that they are made from the best and purest leaf tobacco, are absolutely free from any drugs or adulterations and are covered with genuine imported rice paper. W. T. BLACKWELL & Co.
